Ventech Awarded Multi-Million Dollar Federal Contract

March 30, 2015 - Ventech is pleased to announce a ten year, multi-million dollar contract with the Centers for Medicare & Medicaid Services (CMS).

The Healthcare Quality Information Systems (HCQIS) Infrastructure and Data Center Support (HIDS) contract requires Ventech to provide facilities, IT operations and helpdesk support for all HCQIS IT Systems.

"We are extremely proud and honored to have been selected by CMS to lead and manage HCQIS systems. We are looking forward to delivering super high quality services to CMS in this mission critical program. We are excited that this work will place Ventech at the center of a growing healthcare IT industry and establishes our presence firmly in the National Capital Region."

-Herb Jones, CEO

Ventech as the prime contractor, in partnership with HP, A-Tech, Lore, Telesis and Mindseeker will be providing Operations and Maintenance (O&M) of the infrastructure and systems within HCQIS; Help Desk support; Production Control support ; IT Security, Information Assurance, and Identity Management for all HCQIS systems.
